AUTOFLUG signs contract for Airbus Helicopters seats

Rellingen, November 5, 2024

In the first half of 2024 Airbus Helicopters awarded AUTOFLUG a contract for the development, production and in-service support for helicopter seats as part of its growth strategy.

AUTOFLUG will provide seats for various helicopters in the Airbus range including the H160, H175 and Super Puma family. The seats are designed to protect the occupants by meeting highest performance criteria and environmental requirements.

As part of the Airbus Helicopters supply chain, AUTOFLUG will support the final assembly line as well as the continuous in-service activities. The contract includes the provision of a significant number of seats each year subject to the end customers' needs as well as their life cycle support.

Both companies' cooperation does not only underline the shared goal of making flying as safe as possible, but also values the open and transparent exchange as well as the technical expertise of AUTOFLUG striving for a beneficial solution for Airbus Helicopters' customers.

AUTOFLUG is looking forward to supporting Airbus Helicopters and continuing the well-established relationship between both companies.
