Salus Aviation Partners with MD Helicopters to Establish New Service Center in Nevada, USA

Nevada, USA – January 2025 – Salus Aviation is excited to announce a new service center agreement with MD Helicopters, LLC. This collaboration will allow Salus Aviation to provide extensive hangar and field maintenance services, in addition to supplying parts and accessories for MD Helicopters' aircraft, establishing Salus Aviation as the sole approved service center in Nevada.

The Nevada service center marks a significant addition to MD Helicopters' US support network and builds on the existing collaboration between the two companies, which dates back to 2007. In addition to the Nevada facility, Salus Aviation also operates service centres in Auckland and Queenstown, New Zealand. The expanded network allows Salus Aviation to provide a full range of maintenance services, including dynamic component overhauls (available only in New Zealand), installations, repairs, and the supply of genuine MD Helicopter parts. These services are designed to ensure the continued safety, performance, and reliability of MD Helicopters' fleet.

Strategically located, the Nevada facility will serve both existing and new MD Helicopters customers in the US, providing enhanced service capabilities through Salus Aviation's established global network. This agreement reflects Salus Aviation's dedication to offering top-tier aviation services, backed by the expertise and reputation of MD Helicopters.

"We are thrilled to expand our service offerings in Nevada with the addition of the MD Helicopters Service Centre," said Greg Edmonds, CEO of Salus Aviation. "This partnership supports our continued growth and enables us to meet the increasing demand for MD Helicopters' aircraft across the US, ensuring operators have access to the reliable, world-class support they need."

MD Helicopters' Service Center Network Manager, Randy Langefeld, expressed enthusiasm about the new collaboration: "We are excited to welcome Salus Aviation to our US service network. Their extensive experience in aviation maintenance, strong customer relationships, and skilled workforce will play a key role in delivering exceptional service and maintaining the high standards of excellence that define MD Helicopters."

This expanded partnership is effective immediately, with services available to MD Helicopters customers across the United States. For further information, please contact Salus Aviation at +1 702 953 8809 or visit www.salusaviation.com.

About Salus Aviation
