Cadorath Partners with Higgins Leasing, Expanding RR300 Service Network

Lafayette, LA – March 12, 2025 – Cadorath is pleased to announce a new partnership with Higgins Leasing Inc., following Rolls-Royce’s approval of Higgins as an Authorized Service Center (ASC) for RR300 turbine engines. This collaboration strengthens Cadorath’s global support network and enhances service availability for engine operators worldwide.

As an Authorized Maintenance Repair and Overhaul Center (AMROC), Cadorath operates from facilities in Lafayette, Louisiana, and Winnipeg, Manitoba. Higgins Leasing, based in The Woodlands, Texas, now joins this network as an ASC, further expanding regional maintenance and repair capabilities.

“By partnering with Higgins Leasing, we are strengthening the Rolls-Royce RR300 service network and increasing support for operators,” said Gerry Cadorath, President and CEO of Cadorath. “Their expertise as a Robinson Helicopter Service Center—home to the largest fleet of RR300-powered helicopters—makes them a valuable addition to our extended support system.”

Through this collaboration, Higgins Leasing will provide enhanced regional support, ensuring Robinson R66 operators and other RR300 customers receive top-tier service. Their direct relationship with Cadorath as an AMROC further improves access to OEM-approved maintenance, repair, and overhaul solutions.
