

FL Technics becomes official channel partner of Honeywell Aerospace Technologies

FL Technics, a globally recognized provider of MRO solutions and a subsidiary of Avia Solutions Group, has been appointed an official Honeywell channel partner for business and general aviation.

This new partnership with Honeywell Aerospace Technologies, an engine, avionics, connectivity & data services and mechanical systems manufacturer, means FL Technics can now deliver Honeywell's wide range of engine and APU products. It also ensures FL Technics' MRO centers are certified to install and support Honeywell systems via an OEM-backed framework.

"We are delighted to be an official Honeywell partner, which empowers us to deliver Honeywell engine and APU products and certified installation services under a single umbrella. For our customers, this means faster turnarounds and fewer handovers. And crucially, this is all OEM-backed, so our customers get peace of mind because they know everything has been delivered in accordance with Honeywell's official documentation and training," said Arūnas Ganiprauskas, Head of Procurement and Products Unit, Engine, Airframe and Materials services at FL Technics.

"Channel partnerships, like this one with FL Technics, underscore our commitment to delivering high-quality service and solutions that enhance operational efficiency for our customers in the business and general aviation sectors. Our aim is to instill confidence with our customers, knowing that they receive reliable solutions in region aligned with Honeywell's official standards and expertise," said Flavio Michio Osanai, vice-president, Business and General Aviation, EMEA and India, Honeywell Aerospace Technologies

Products and services from Honeywell Aerospace Technologies are found on virtually every commercial, defense and space aircraft, and in many terrestrial systems. The Aerospace Technologies business unit builds aircraft engines, cockpit and cabin electronics, wireless connectivity systems, mechanical components, power systems, and more. Its hardware and software solutions create more fuel-efficient aircraft, more direct and on-time flights and safer skies and airports.

About FL Technics

FL Technics is an MRO company specializing in base and line maintenance, spare parts and component support, engine repair, full aircraft engineering, technical training, and aerospace logistics. It has EASA Part-145, Part-CAMO, Part-147, Part-21, and FAA-145 (Jakarta) certification, counts Lufthansa Group, Wizz Air, and EasyJet among its many clients. FL has hangars in Lithuania (Vilnius and Kaunas International Airports), the UK (Prestwick International Airport), and Indonesia (Jakarta International Airport and Bali Island, I Gusti Ngurah Rai International Airport). It will open a location in the Dominican Republic (Punta Cana International Airport) soon. The company operates 23 subsidiaries across Europe, the Americas, the Middle East, and Asia-Pacific, forming the FL Technics Group.

FL Technics is a globally recognized aviation MRO (Maintenance, Repair, and Overhaul) services company and part of Avia Solutions Group, the world's largest ACMI (Aircraft, Crew, Maintenance, and Insurance) provider, operating a fleet of 209 aircraft worldwide and the parent company of over 250 subsidiaries. The group offers a wide range of aviation solutions, including MRO (Maintenance, Repair, and Overhaul), pilot and crew training, ground handling, and other related aviation services. Supported by 14,000 highly skilled aviation professionals, the group operates across 6 continents.
