AEM secures another STC for its MTP136D aerial firefighting radio

Kelowna, BC, Canada, September 25, 2025 – Canadian avionics manufacturer, Anodyne Electronics Manufacturing Corp. (AEM), secures a second Supplemental Type Certificate (STC) for its modern MTP136D P25 forest service radio. The Transport Canada awarded STC #SH25-17 will streamline radio installations for operators providing aerial firefighting services using several popular Bell helicopter models.

“We’re happy to hold this new STC for these Bell models, which are commonly used to fight fires,” says Tony Weller, AEM’s Sales and Marketing Director. “Getting this up-to-date and reliable radio in aircraft fast is what our customers need and we’re proud to help support these critical missions.”

AEM’s new STC covers the installation of the MTP136D for the following Bell aircraft: 204B, 205A, 205A-1, 205B, 210, 212, 412, 412CF and 412EP. With the radio in high demand, AEM has stocked its shelves and are ready to ship at a moment’s notice to meet mission needs.

Designed with the United States Forest Service (USFS) and aerial firefighting operators in mind, the [MTP136D](#) is a Project 25 Phase 1 compliant VHF FM solution for digital and analog communication on all channels across the 136MHz to 174MHz frequency band. It’s easily integrated for tactical systems, platform upgrades, and is a plug-and-play replacement for existing legacy radios.

Call the AEM sales team at [1-888-763-1088](tel:1-888-763-1088) or email sales@aem-corp.com to place your MTP136D order and secure an STC package today.
